BIAMP MRB-L-X400-T

LARGE MEETING ROOM BUNDLE WITH TESIRAFORTÉ X 400 AND BLACK TABLE MICROPHONES

This bundle provides a complete audio solution for meeting rooms of up to 5m x 11m in size, including everything required to outfit a conference room to enable clear communication in every meeting.

The package includes Biamp's TesiraFORTÉ X 400 meeting room DSP, incorporating processing and network connectivity into a single device. It also features Biamp Launch to ensure that room deployments are lightning fast and 100% consistent, making for a fully optimized collaboration experience every time. Parlé microphones keep table clutter to a minimum and blend into the room, while still providing crystal clear audio pickup and LED mute indication to room users. Desono C-IC6 loudspeakers deliver superior audio clarity.

FEATURES

- Zero programming, and automated tuning with Biamp Launch
- Custom AEC enhances remote participant experiences
- Clear audio when multiple parties are talking
- Noise Reduction minimizes problem sounds such as air conditioning
- Speakers tuned for voice reproduction in conference room applications
- Microphone mute buttons and LEDs sync with UC software

ARCHITECTURAL SPECIFICATIONS

The room bundle shall include all the necessary equipment and cabling to provision a 5m x 11m meeting room with conferencing audio capabilities in concert with a UC room system. This equipment shall be four ceiling mounted loudspeakers, two Beamtracking® table mounted microphones, one PoE+ powered amplifier, and one room hub and audio digital signal processor that shall connect all other devices to an Ethernet network via RJ-45 connectors. The system shall connect to a UC Codec via a USB interface. The room bundle shall make use of Biamp Launch for automatic device discovery and tuning. The room bundle shall be the Biamp MRB-L-X400-T
